

JACKAROO *Rigout.*

ONLY \$29,950 AND LOADED WITH EXTRAS.

MUDGUARD EXTENSIONS

Holden Jackaroo *Rigout* has all the comfort and features of the much proven Jackaroo DLX, and you save over a thousand dollars on these quality made extra items.

To save you being stranded in the middle of woop-woop, there is a C.B. radio and AM/FM stereo cassette system that's fitted in, not bolted on.

And to save you running into any trouble at night we have replaced the

normal bumper bar with a heavy duty Rallyspeed bullbar and added a set of Bosch driving lights. A chrome plated Holden roof rack should save you more space where it really counts - inside. There are many more savings too.

So if you want an affordable four-wheel drive with a touch of individuality, see your Holden dealer today. At \$29,950 plus on road costs, you don't want to beat around the bush.
